

The topic I would like to approach is "Should gun control be introduced in america and the second amendment be repealed?"

The two websites I have found are:

Brady Campaign

<http://www.bradycampaign.org/about-brady>

The Brady Campaign is an organisation aimed at cutting gun death in half by 2025, it is named after Ronald Reagan's assistant who was shot and nearly killed by a gunman named John Hinckley.

National Rifle Association

<https://home.nra.org/>

The NRA are a well known organisation across america for defending the second amendment and fighting against gun control within the US, often trying to reason that it is people that kill and not the guns.
