Personal Profile

I am an enthusiastic, hardworking person that can mix well within teams as well as work on my own. I am very detemined to make any project I start the best it can be and I am not afraid of making suggestions if it isn't already included within the scope.

I want to make a career within the web design and development industry as a PHP developer following my graduation in 2018 with a bachelor's degree in web design and development.

Employment History

Edge Hill University, Jan 2018 - Present, Teaching Assistant

My responsibilities are ensuring the first and second year students are managing to keep up with the current work and helping them troubleshoot any issues that arise, I co-lead support sessions as well as well as help alongside the tutor in class.

Tyn-y-Coed Inn, Capel Curig, July 2007 – January 2018, Front of house staff

My responsibilities were to assist in the bar and office areas of the hotel, which included managing money, replenishment of stock and serving customers, I also assisted customers and residents with a series of questions and complaints and handled both professionally and in a respectful manner.

Edge Hill University, Aug 2016 - June 2017, Student Assistant

My responsibilities in this role was to be the first point of contact for students that resided in the three halls of accommodation on campus that I supervised, I would attempt to support them in any way that I could with a range of different questions and issues and in the circumstance that I was unable to support them I would redirect them to the relevant service that would be able to help them.

Skills

- A good understanding of:
  - HTML, CSS, SCSS, Javascript, Javascript libraries & PHP (learnt during my Server-side Scripting module when creating a full stack survey web application)
- A basic understanding of:
  - MySQL (learnt during my Server-side Scripting module when creating a full stack survey web application)
  - Python (demonstrated within my Data-driven design module when analysing apache web data logs)
- Knowledge of version control usage through Git
- Knowledge of BASH and Unix

Experiences and Interests

During my spare time, I enjoy catching up with friends and family, I also enjoy playing video games on my PC and Xbox One. I find it a good way of relaxing and taking some time for myself.

In October 2017, I participated in the ROQ defectors hackathon challenge that consisted of me looking for defects through a various amount of issues such as deadlinks and accessibility issues amongst several websites.

A couple of weeks later, I assisted in the running of an ROQ defectors hackathon challenge where I worked with teams to determine whether they had found issues with the website.
